Business Development and Physician Support

Scope of Services

The Physician Support Services Team provides the resources to expand and develop the physician network of this region. Our team provides assistance to new physicians establishing medical practices, along with continuing support for established physicians in maintaining their practices in the community. We are engaged to promote cooperation between the hospital, its medical staff and other parties.

Vision

Atrium Medical Center will strategically align with physicians as collaborative partners to meet the needs of our community.

- We will engage with our physicians in our pursuit of clinical excellence and shared passion for high quality outcomes
- We will work with our physicians before making decisions that directly affect them and will act quickly
- We will partner with physicians to create an easy and efficient practice environment
- We will partner with physicians who join us in community responsibility for treating everyone regardless of their ability to pay

Goals

- To identify needs of patients in our community and collaborate with physicians to provide services.
- To recruit and retain high-quality physicians that provide premium care for the patients of our community
- To foster a working environment that supports the efficient delivery of patient care
- To establish and foster collaborative relationships between subspecialty physicians, primary care physicians and hospital administration
- To effectively support the medical staff to identify and better serve the needs of the community
