

# Access & Transfer Center at Miami Valley Hospital

When one of your patients requires tertiary care, it's good to know that the award-winning capabilities of Miami Valley Hospital (MVH) are only one phone call away.

You can call **866-330-3444** to admit a patient or arrange for transport via CareFlight Air and Mobile Services through our MVH Access and Transfer Center. You can also reach this service if your facility has a red CareFlight "bat phone."

The Access and Transfer Center is a time-saving tool that can give you peace of mind. With your call, we can expedite transfers from a hospital emergency department or inpatient unit directly to MVH.

If your patient requires transportation, we offer three helicopters and three mobile intensive care units. They serve more than 150 hospitals and 300 community life squads across 17 counties in Ohio as well as parts of Indiana and Kentucky.

We look forward to offering the resources of our Access and Transfer Center to you. If you have questions on our service, please call Donnie Ewege, Access and Transfer Center manager, at **(937) 208-2272**, or visit [mvh.org/access](http://mvh.org/access).

**One call, full service. 1-866-330-3444**  
**Admit a patient or arrange for transport via**  
**CareFlight Air and Mobile Services.**

We are proud to be known as "The Region's Leader." Miami Valley Hospital is the largest healthcare provider in the Dayton area with 865 staffed beds. We hold Magnet status in nursing and have received the HealthGrades Distinguished Hospital Award for Clinical Excellence for four consecutive years. We have the Dayton area's only:

- Level I trauma center
- High-risk obstetrics and perinatal center in the same facility
- Adult burn center
- Organ transplant center
- Bone and marrow transplant unit
- 24/7 interventional neuro-radiology capability

In addition, MVH's 30 hospitalists and variety of sub-specialists can help coordinate care for your patients once they are admitted. If they need help getting back on their feet, the MVH Rehabilitation Institute of Ohio is one of the country's largest and most comprehensive rehabilitation services providers.
